

SDI Cookbook
Guidelines for the creation of Spatial Data Infrastructures

Douglas Nebert
GSDI Permanent Secretariat,
FGDC Secretariat

Objectives of SDI Cookbook are:

- to evaluate practical techniques for creating a trans-national spatial data infrastructure consistent with an emerging GSDI policy;
- to establish an expert group to implement the technical aspects of the GSDI;
- to identify requirements for and co-development of *core common GSDI modules*;
- to develop a GSDI implementation guide including a *common GSDI Glossary*.
